## technologies

Socket.io, d3.js, Gulp, Chrome DevTools, Xcode, Postman, GitLab EE, MySQL, MongoDB, Redis

## skills

JavaScript, Angular, Ionic, Node.js, Firebase, git, HTML5, CSS3/SASS

## experience

- 2016–Now **Keriton** Remote, USA  
*Lead Front End Engineer*  
I joined as the first employee with no customers, or any product. I have been extensively involved in understanding the needs of a NICU, brainstorming sessions, writing JavaScript code, review change requests and finally planning all the releases. Some of my responsibilities are
- Develop 2 cross-platform applications to validate actions in NICU.
  - Translate functional requirements to technical features.
  - Define code practices to build a de-coupled code-base minimizing code smells.
  - Create CI test pipelines for development, stage and production environments.
  - Maintain permissions and repositories on self-hosted Gitlab EE.
  - Mentor new hires, and interview engineering candidates.
  - Technologies - Ionic v1, AngularJS, Cordova, WebView, REST, Karma, Protractor, Socket.io, Gulp, YAML, Xcode, GitLab, ZPL, AWS
- 2016–2016 **Zolostays** Bangalore, India  
*Front End Engineer*  
I joined Zolostays for a first-hand start-up experience, and was involved in building the internal CRM tools. Some of my responsibilities were
- Build the e-commerce website for the hospitality start-up company.
  - Develop CRM for reporting, inventory management and similar back tools to streamline internal management.
  - Technologies - AngularJS, HTML5/CSS, MongoDB, REST, Git, Jenkins, Asana
- 2014–2016 **SAP Labs** Bangalore, India  
*Software Developer*  
My time at SAP was a good blend of a corporate and start-up experience because I joined in the fire-fighters team lead by Vishal Sikka (CTO of SAP). Some of my responsibilities were
- Conceptualize industry-specific visualizations for SAP Lumira using d3.js.
  - Build interactive dashboards with key performance indicators (KPI) in SAP Cloud For Planning.
  - Technologies - SAP HANA, SAPUI5, JavaScript, d3.js, Highcharts.js, Git, Jasmine, Gerrit, Jenkins, Maven

## patent applications

- Nov, 2015 Visualization of Key Performance Indicator Dependencies USA - 14/954,139  
Sep, 2015 Multi-Dimensional Visual Analytics for Industries India - 4107/CHE/2015, USA - 14/866,562

## education

- 2010–2014 B.Tech in Computer Science & Engineering National Institute of Technology, Karnataka

## certifications

- Jan, 2018 Advanced HIPAA Privacy & Security Keriton  
May, 2015 HICHERT International Business Communication Standards SAP
